

LANDSCOUT™

This spotting scope is ready for any adventure! You'll be able to quickly set it up and use the 10-30x or 12-36x zoom to get close to the action. LandScout combines bright, sharp views with an entry level price tag. Tabletop tripod included.

KEY FEATURES

- + Fully Coated Optics: Increased light transmission for bright, sharp images.
- + Compact, Lightweight: Portable and packable, so you can take it on any excursion out in the field or on the range.
- + Rotating tripod mount: Place the orientation of the eyepiece in the best viewing position for application.
- + Adjustable magnification - wide field of view for general viewing or detailed up-close viewing when needed. Rubber grip for easy magnification adjustment.
- + Large focus wheel with rubber grip: Easily focus on the subject, even when wearing gloves.
